SELF-INTRODUCTION

Motivated and detail-oriented Full Stack Developer with a strong foundation in web development technologies, including Python, Django, Flask, HTML, CSS, JavaScript, SQL, MongoDB, and Bootstrap. Passionate about building dynamic, responsive, and user-friendly web applications. Skilled in backend and frontend development, with a keen interest in optimizing performance and enhancing user experience. Eager to apply knowledge and contribute to innovative projects in a collaborative environment.

PROJECTS

GROCERY E-COMMERCE WEBSITE (DJANGO)

- **Technologies Used:** Python, Django, HTML, CSS, JavaScript, Bootstrap, SQL
- **Project Description:** Developed a fully functional grocery e-commerce website that allows users to browse products, add items to a cart, and complete secure transactions.
- **Key Features:**
 - User authentication and role-based access (customer/admin).
 - Product catalog with search and filtering functionality.
 - Shopping cart and order management system.
 - Secure payment integration.
 - Responsive and user-friendly UI with Bootstrap for enhanced design.
- **Outcome:** Improved user experience with seamless navigation and efficient order processing, demonstrating strong full-stack development skills.

PERSONAL PORTFOLIO WEBSITE

- **Technologies Used:** HTML, CSS, JavaScript
- **Project Description:** Designed and developed a personal portfolio website to showcase skills, projects, and achievements in web development.
- **Key Features:**
 - Interactive and responsive design for an optimal user experience.
 - Dedicated sections for about, skills, projects, and contact information.
 - Smooth animations and transitions using CSS and JavaScript.
 - Dynamic project gallery with hover effects.
 - Contact form with email integration.
