PROFESSIONAL SUMMARY

Business Analytics MBA candidate with hands-on experience building data dashboards, full-stack web applications, and freelance SEO/digital marketing campaigns. Proficient in Python, SQL, React, and FastAPI, with demonstrated ability to build ML-driven products, deliver Looker Studio/Power BI dashboards used for real reporting, and generate measurable lead growth for clients. Targeting Business Analyst, Data Analyst, and BI/Reporting Analyst roles.

SKILLS

Programming: Python, JavaScript, HTML, CSS, SQL

Web Development: React, Vite, Django, FastAPI, Bootstrap, REST API Integration, UI/UX Design, Responsive Design, SEO Optimization

Data & AI: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Predictive Modeling, Machine Learning

Analysis & Visualization: Power BI, Looker Studio, Microsoft Excel

Databases & Deployment: MySQL, SQLite, PostgreSQL, Git, GitHub, Ubuntu, Nginx, Gunicorn, Netlify

EXPERIENCE

Tech Analyst

Jun 2026 – Aug 2026

[WAY.CZ International](#)

Pune, India

- Built an employee performance dashboard in Looker Studio from raw Excel data for company management — KPI scorecards, conditional formatting, and department-level breakdowns used for internal reporting.
- Independently designed and built a full-stack weather forecasting and crop advisory web application (React/Vite frontend; FastAPI, Python, PostgreSQL/SQLAlchemy backend) with location-based weather alerts, crop-specific advisory logic, and reverse-GPS location lookup.

Freelance Web Developer & SEO Consultant

2023 – Present

Self-employed

Pune, India

- Delivered 3 client websites across 2 clients: two real estate sites (vyomsgmavinea.com, housiefy.in) and one interior design portfolio site (Dream Decor Studio).
- Ran SEO and digital marketing for the real estate client, generating 77 leads for vyomsgmavinea.com and 20 leads for housiefy.in through organic search and campaign work; handled end-to-end delivery and deployment (Nginx/Gunicorn/Ubuntu, Netlify).

Supervisor

Dec 2022 – Jun 2023

[Fleetguard Filters Pvt. Ltd.](#)

Pune, Maharashtra

- Supervised daily production line operations and shift labor teams, ensuring output quality and compliance with manufacturing standards.
- Handled critical documentation including challans, GRRs (Goods Receipt Reports), and e-way bills.

PROJECTS

Sasyavrishti — AI Crop Intelligence Platform (Founder) | Python, FastAPI, React, PostgreSQL

- Building an AI-powered agri-tech platform as student founder; live features include EfficientNet-based crop disease detection, mandi price intelligence, and weather-based advisory. Architected the full feature set and presented as technical lead at Smart India Hackathon 2026.

Sales Dashboard | Power BI

- Developed an interactive dashboard for revenue, profit, and customer insights on a mock practice dataset.
- Reduced data processing time by 20% through efficient data modeling and optimized query design.

Housiefy | React, Django, JavaScript, Bootstrap | [housiefy.in](#)

- Full-stack real estate platform with property search, filtering, and REST API integration; deployed on Nginx/Gunicorn/Ubuntu with a custom domain, optimized for SEO and mobile responsiveness.

Vyom Sigma Avinea | HTML, CSS, JavaScript, PHP | [vyomsgmavinea.com](#)

- Real-time real estate broker website with responsive UI/UX, property listings, and inquiry forms, deployed on a live production server.

EDUCATION

MIT ADT University

2025 – 2027

MBA – Business Analytics (Pursuing), Pune, India

Savitribai Phule Pune University

Aug 2021 – Apr 2024

Bachelor of Arts, English Literature — Grade: A, Pune, India
